WASTEWATER ENGINEERING

RAPID RESPONSE TIMES
EXCEPTIONAL SERVICE
ADAPTIVE TO CHANGING NEEDS

WELCOME TO OUR WASTEWATER ENGINEERING DEPARTMENT

Carroll Engineering provides comprehensive wastewater engineering services, from small neighborhood sewer extensions to large pump stations. Our innovative designs, like biological nutrient removal, reduce costs for new and retrofitted treatment plants.

In addition to conventional engineering, we offer a wide range of services that encompass system operation guidance, infrastructure asset management, budgeting and rates, regulatory compliance, municipal finance, and inter-municipal agreements.

WHAT WE DO

- **Wastewater Engineering Representation for Municipalities and Authorities**
- **Wastewater Collection, Conveyance and Treatment**
- **System Condition Evaluation**
- **Inflow and Infiltration (I/I) Investigations**
- **System Rehabilitation**
- **On-Lot Disposal Systems**
- **Act 537 Plans**
- **Wasteload Management (Chapter 94) Reports**
- **State and Local Permitting**
- **Sewage Management Programs**
- **Asset Management and Mapping**
- **Grant Services**
- **Drone Services**

"Quality is a state of mind and our driving force here at Carroll Engineering Corporation is to continuously provide the best level of experience to all of our clients. We strive to exceed expectations, build long lasting relationships, and utilize our projects to better each of our surrounding communities. Our departments within the firm act as consultants to each other, thus integrating all our knowledge, skills, and experience to ensure the most practical, efficient, and sophisticated solutions to every challenge. We identify and address potential problems at the earliest planning stage, then employ our innovative design approach for preventing difficulties and bringing our clients' projects to their satisfying completion. Thank you for entrusting our team with your projects and communities. We sincerely look forward to seeing and sharing in your success for years to come."
